

Trending Topics for College Assignment

This is social media assignment on emerging technology. (title page and a reference page not included in the length requirement) and include a minimum of 7 references:

- 5 [peer-reviewed](#) sources;
- Course textbooks;
- The Bible.

Please have an Introduction and conclusion. Select your topics from the following list. With instructor approval, you may research a subject of your own choosing.

- 3-D Displays & Printing
- 5G
- Additive manufacturing
- Augmented human
- Augmented, Virtual, Mixed Reality
- Automation
- Autonomous Vehicles
- Battery Technologies
- Bioinformatics, Biometrics, Biotech.
- Blockchain
- Brain-inspired computing systems
- Cloud Computing
- CollaborativeTech
- Cyber Security
- Dark Web
- Desalination
- Digital ecosystems
- Digital genome
- Distributed manufacturing
- Distributed Manufacturing
- Drones
- Fog Computing
- Fuel cell vehicles
- Greener networks
- Health Tech
- Homomorphic Encryption
- Immersive Media
- Implantable electronics
- Intelligent Nanobots
- Internet of Things (IoT)
- Mobile & Social Internet
- Mobile Technologies & Advancements
- Nanotechnology
- Neuromorphic technology

- New screens
- Next-generation robotics
- Outsourcing
- Post Classical comm. & compute
- Powered Exoskeletons
- Precise genetic engineering techniques
- Quantum computing
- Reversible computation
- Serverless computing
- Smart Cities
- Solar Power
- Sustainable computing systems
- Systems Metabolic Engineering
- Terahertz Imaging
- Voice Assistants
- Wearables
- Wireless Power

Note: Your assignment will be checked for originality via the Turnitin plagiarism tool. Submit your papers to the Turnitin Draft link to check for potential issues with plagiarism. When you are ready, submit the final version of your papers to the designated Turnitin submission link.
